Chapter One: the beginning

Its a normal green dill day, Peter and pepper are best friends that live together in a apartment on Pickle street. Pickle planet has been around for 200 years and was discovered by humans 100 years ago and the humans had been trying to land on the pickle planet to destroy us pickles. The pickles have been trying to take over the world but have been unsuccessful due to the amount of resources us pickles don't have. Me and piper also have a friend the lorax he snuck over here to pickle planet when he was a baby he snuck on a spaceship and that spaceship got lost in space and he floated over here while the other people in the spaceship died due to no oxygen (he says he held his breath whatever that means) he says he got taken over here by aliens but we all know he's lying

Chapter Two: shut the front door

Normal pickle day and peter and piper decided to watch some tv they turn on the tv they pay 1,000 dollars each week for a news channel that is for humans but the pickles hacked into it so we can watch it to make sure they aren't planning to invade the pickle planet and if they are they can watch the news and see when it's going to happen because they report everything on the tv. It's very smart of the pickles and on the tv they see that they are building a 3 billion dollar spacecraft to try to come over to pickle planet. And all we can do is hope the humans can't get over here with a space craft. Panice time.

Chapter Three: in a pickle

It has just been announced that the humans are planning to land on pickle planet on a airplane in 3 days there is no time to prepare for anything. Everyone is so scared and finding places to hide like underground and far away from where humans are landing (there landing in my town) there is no time to hide we must fight back to protect our planet and our community.

Chapter Four: what a dill

It was time to prepare petter and piper were the only ones with powers in the whole city and they had to use it to protect the pickle population so they decided to build a bunker/ a home base that they could go if they got separated and needed to find each other the town is pretty big so they needed a good spot to go to. Now we wait 1 more day and the humans will be arriving.

Chapter Five: The take over

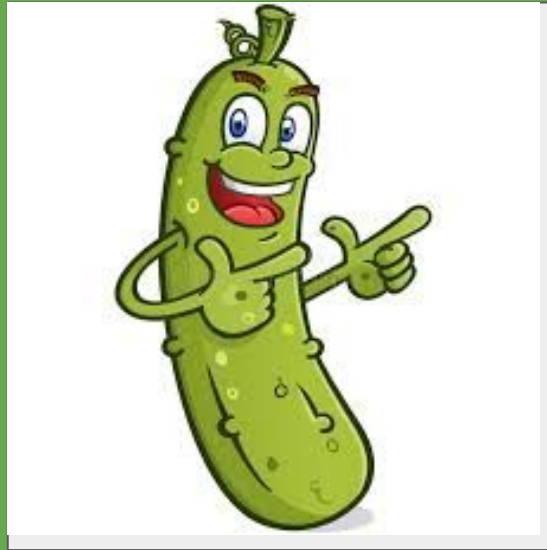

The humans have arrived and are standing and staring trying to intimidate us or they just haven't seen a pickle person before and were kinda creeped out but idk but then they start blowing up everything and are trying to beat us all up everybody and running and screaming and freaking out i decided it's time to use my powers in start spraying everyone in the eyes with pickle juice and i started shooting pickles into noses and into the gut so i could tell all the civilians to run and hide there were way more people than pickles.

Chapter Six: PLOT TWIST

Suddenly everyone stopped and the humans just stood there and stared and suddenly the alpha human steps forward and shakes my hand and says truths and walks away with the rest of his team i was so confused why he stopped fighting me but i had to follow him he was starting to walk downtown pickle street i was worried and confused to i sneaked around watching were they were going to make sure they weren't going to destroy me he already killed 2 pickles and turned them into relish and suddenly he walked into this dark alley and picked up a box and in that box was a little human baby how did that get there i haven't seen a human on this earth in 10 years. I think he only came down here to get what was theres and there baby was on pickle planet somehow

And they seemed scared too i'm guessing they just haven't seen a pickle person before and were kinda creeped out but idk but then they all start reaching behind themselves and grab out CUCUMBERS they start throwing them at me and piper.
