Chapter One: Luna Sen's History

I was getting ready for the day so I can hangout with Silly Goose. On this one day I dreamed that I could have freedom from the humans and to even start my own family. I live on a doughnut planet where there is many things that are doughnut shaped. The doughnut planet is known for having many humans that harms animals. Also the doughnut planet is known for having many animals like bears and ducks.

My childhood home is located in Gobbly Gobbly somewhere on the doughnut planet. My childhood neighborhood is not known for having many humans living there. I met my friend Silly Goose in Gobbly Gobbly at my elementary school. She was new to the school and I felt bad due to her having no friends yet. I only approached Silly goose since I had experience being the new kid before and know how it feels. Silly goose means everything to me because she has been there for me through the ups and downs in my life.

The doughnut world is a dangerous place for me because humans try to harm me for being a big animal when I am friendly and kind to all. Also, in the doughnut world, when I go on walks with silly goose to the cafe we always spot humans so we always have to hide. For example like a day ago me and Silly Goose were on a walk trying to go get are morning coffee and doughnuts. But the humans spotted us and started chasing us down and almost killed us.

Chapter Two: Hometown Gobbly Gobbly

My childhood home is located in Gobbly Gobbly a small town in the doughnut planet. A problem I faced in my hometown is many other animals bullying me for the way I look and how big I am. Also, in Gobbly Gobbly I lost my parents because many humans targeted are house and killed my parents.

After my parents were killed, I was kicked out the house because my aunts and uncles didn't want me to be there problem. Due to the humans harming my parents, I was too poor to even get food or get a home for myself. I started walking I found this lonely duck that was harmed from humans.

As I started helping the duck she told me that her name was Silly Goose. Me and Silly goose we hit a river and I started clean all the blood off her. As time went on me and Silly Goose became closer and slowly approached humans looking for us. The humans slowly started sneaking up on us and almost stabbed Silly Goose. Until I told Silly Goose to fly as I ran away. As we slowly started to lose the humans we find this abandoned doughnut cafe. In the Abandoned cafe we started making it are home.

Chapter Three: The abandoned Doughnut Cafe

As I approached the abandon doughnut cafe Silly Goose and I started exploring inside and saw that there was many things broken. Since we approached the abandoned cafe we slowly started making it a home. After we made the abandoned cafe are little home we slowly fixed broken things. As time went on Silly Goose was barely around the cafe anymore due to her parents having so many issues with humans. Due to Silly Gooses family issues she had moved out and started living with her parents again.

Since it was just me I have been exploring more around the town. This abandoned cafe was located in a town called HUMAN TERRITORY! When I walked into some of the stores it was scary because many things were not animal friendly. Then, I found this big baby that was lost because his sisters had left him. So I approached the baby and picked him up and took him home with me. As I walked out the store I saw that his name was on his bracelet and saw his name was Crabby Baby. So as me and Crabby Baby had gone back to my home it seemed off how he wasn't crying and was so happy around me.

Since Crabby baby had been so good I took care of him he had such funny laughs. Then one day humans start banging at the door and said "Open the door we see that you have the missing baby." After the humans came in they saw how happy crabby baby was and they all started smiling. So the humans let us be and didn't take the chance and got him back. Until they came back with so many groceries and food for me and Crabby baby. SLOWly after they saw everything the humans came back everyday to check up on us to make sure I was able to cook and clean the house.

Chapter Four: The lost Baby and Helpful Humans

As time went on the humans had helped me take care of Crabby Baby. Crabby Baby and I started to go on daily walks without being bothered by the humans because they started respecting me. Slowly throughout the day Crabby Baby started crying and I didn't know what to do. So while we were walking home humans came over to us and tried helping me calm him down.

One day me and Crabby Baby went grocery shopping we had ran into Silly Goose. So as we ran into Silly Goose we ran and hugged each other because we haven't seen each other in 5 months due to her family's issue she left for. While I went to go get Crabby Baby I introduced him to Silly Goose. When Silly goose realized that I had the lost Baby she was super surprised because she always thought that I wouldn't be the kind to go out and find babies.

While I was working, the humans have been so helpful with babysitting and making sure Crabby Baby was fed and ready for bed. When I went to work I got a call from the humans that Crabby baby wasn't feeling well so I went home and gave him some medicine to help him. As time went on the humans haven't tried to harm me and Silly Goose. While I was at work Silly Goose showed up and told me that I have to leave because some harmful humans I haven't met before came. However, I choose not to listen and things started going down.

Chapter Five: Harmful/Crazy Humans

Since I didn't listen to Silly Goose, when I saw those humans I didn't really care because I knew that they were helpful. Then, they started to harm all the hardworking animals and I started to SCREAM! I started to scream for "HELP" because I had always thought that the humans started to be kind. Therefore, I wanted to go but I couldn't the harmful humans were everywhere and I forgot my doughnut power to help me get my strength to get up.

So since I forgotten it I tried to look for my weather oil. When I found the weather oil I placed it everywhere so the weather could change and the humans can run away. Little did I know is that one of the harmful humans were behind me and slowly started to slowly punch me in the face. As I fell to the ground the humans who have been helping me with crabby baby shows up and takes me home. When we got home I passed out. I slowly started to wake up see and I see that Crabby baby is right next me.

While the humans were still taking care of me Crabby Baby kept climbing on top of me. Due to me getting hurt from the humans Crabby Baby has been so good for me and hasn't been crying unless he was hungry then he would cry. After I had got hurt I thought that I couldn't live here anymore because it was to dangerous me and Crabby Baby. So since I have been home and not working I have been looking at houses and to buy one for me and Crabby Baby.

Chapter Six: My New Crazy Home!

It has been a while since I have been house shopping. Then, I saw this house that looked really pretty and spacious for me and crabby baby. I haven't been working so I thought I would have enough money to buy it but I really couldn't afford it. After a while I have been a little stress because I couldn't work and couldn't get a new home so that Crabby Baby had space to live. I bearylly even had food to cook For Crabby Baby

But little did I know that the humans had bought me and Crabby Baby the house and has been buying us furniture. I had been a bit more stressed because the humans haven't been around anymore to help me take care of Crabby Baby. So since it has just been me and Crabby Baby we have been watching movies and going on daily walks to keep us up and moving. One day me and Crabby Baby were watching a movie we heard a knock at the door and we saw that it was the humans.

As the humans walked in they kept smiling and the said "WE BOUGHT YOU A NEW HOME!" After the humans said they bought us a home I got up and started screaming and jumping up and down. It has been a while since we have got the news me and Crabby baby have been packing up the house. Me and Crabby Baby finally went and saw the new house. The house was so modern and pretty looked like me childhood home. After a while me and Crabby baby have been back to normal and had no problems. I finally got a job and could finally produce for Crabby Baby and I. So that was my life story.
