Inventory

Alien Territory Map

This map shows the layout of the alien territory. The purpose of it is to help people sneak into the alien village.

Fluff Dustbun Bottle

This item helps dust bunnies shapeshift and regrow their hair. It comes in handy when a dust bunny touches water and starts to disintegrate.

Boliar Potion

This potion gives the ability for dust bunnies to disappear by spreading out into the air in small particles. This helps them sneak by enemies without detection.

Companion

Peach

A small pegasus from the planet ponyville who got lost on a adventure in space and ended up on the planet Dusty Den. Tammíca met her after the Bolaf hotel got demolished. She is 14 years old.

Home Planet: Dusty Den

Tammíca's home planet is dusty den and this planet has very low gravity, no oxygen, it is squishy, and it is very small and only has 50,000 miles of land. This planet has only one big body of water that is purple and has enough to supply everyone. The main food on this planet is goblísh berries, only one of these berries give every nutrient and energy needed to survive.

Hometown: ???

The hometown Tammíca lives in takes up the whole planet and everyone knows eachother its is a small world. Their is a diverse selection of creatures but they all seperate themselves into groups of neighborhoods.

Political Climate / History:

The planet's first life dated back to only 15 years. The first creatures on here were aliens and they made more types of life in their spaceships experiment labs. They created species such as gublíes (kind of like a wolf but is purple and has horns), and temiwala's (rats but with unicorn horns and usually are hot pink, blue, or rainbow). And these 2 creatures they reproduced and made more different creatures like dust bunnies.

An Interview by Mrake

Q: what is a unique talent you have?

A: A unique talent i have is that i can take dust particles and fly in the air. I separate myself, disappear and go wherever I want.

Q: What is an embarrassing moment you had?

A: One embarrassing moment I had was when I was hanging out with my dust bunny friends in the mall. I had a little bit of gas and when i released it all my dust particles flew in the air and it smelt rotten and it was so big I shrunk down in size

Q: If you had to get a tattoo, what would it be?

A: If i got a tattoo it would probably be a scary and sigma galaxy alpha wolf on my left dust bum (rear end).

Living Space: Cleaning Closet of the Bolaf Hotel

Dust corner

The purpose of this room is kinda like a bathroom but for dust bunnies. It helps Tammíca clean herself with the fresh dust on the floor. This is necessary because when she loses dust she will become smaller and smaller until she is no longer a thing anymore.

Lounge corner

The lounge corner consists of Tammíca's bed (a yellow duster) and a picture of her family. The picture helps her remember that her main goal of life is to save her sister and mother. This corner helps her rest after a long day.

Food corner

In this room Tammíca has a giant bucket of dirt to eat that will last her years. This corner is important because it contains the necessities for Tammíca's health and hunger. Also Tammíca has food for her friend peach the pegasus.

Chapter One: Moving On

In this chapter Tammíca loses her home in the Bolaf Hotel because it was getting torn down. Then she meets Peach the Pegasus.

Chapter Two: Making Friends

Her and peach make a home and become really good friends and support each other throughout their struggles. Both of them have lost their family.

Chapter Three: Saving Family

In this chapter Tammíca and Peach make plans on how they will rescue Tammíca's family from the vacuum in the alien home. But when they sneak into Tammíca's old home at the aliens house they discover that the vacuum is gone and must have got thrown away.

Chapter Four: Grief

In this chapter Tammíca beliefs she has really lost her family and she has no more hope. But Peach has an idea and makes plans to go to the landfill and find Tammíca's family.

Chapter Five: Encouragement

In this chapter Peach is a good friend and brings hope to Tammíca. Then Peach and Tammíca Journey out to the landfill to have a big search for her family in the vacuum.

Chapter Six: Reuniting

In this chapter Tammíca and Peach arrive at the landfill and begin their search. After many hours of searching peach finds a old vacuum lodged into some trash on the ground. When they open it they find Tammíca's family. But Peach feels out of place and misses her family too. Finally Tammíca and her family reach out to the aliens and they help send Peach back to her home planet using one of their gadgets.

Chapter One: Moving On

On the planet Dusty Den there was a happy dust bunny named Tammíca with only a mother and a sister to call family. Her and her family were the most happy creatures on the planet. Until one day a big green greedy alien invaded their home under the couch with a vacuum and sucked up all the dust and debris including Tammíca's last family members. Little Tammíca was too young to understand what she lost that day but she was able to escape the aliens house using her morphing powers to turn into a spec of dust and escape quickly. When she escaped she found a new home at the Bolaf hotel.

Three years later on the day that the hotel was getting demolished there she was in the small cleaning closet of the Bolaf hotel marking another tally mark on the wall for how many days she has lived without a family. She did not know what was going to happen that day so everything was normal for her until she heard a giant crash above her then a few seconds later she heard a loud creak and a harsh snap. She tilted her head up and she saw a giant crack ripple right through the middle of the ceiling. Her fur poofed up in fear and she began to sprint to grab her family portrait that was sitting on the floor then she quickly slid under the cleaning closet door and ran as fast as possible out the exit portal as the whole building crumbled into rubble behind her.

Chapter One: Moving On

After she made it out the hotel she began to feel dizzy and passed out in shock. When she finally opened her eyes again after passing out she noticed she had moved under a giant purple tree nowhere near the hotel. She looked to her left and saw her family portrait she rescued from the hotel but it had a crack split down the middle of the glass frame. Then she stood up and went to pick up her family portrait until she heard something behind her. She stopped and slowly turned around when she saw a big pegasus snoring in its sleep on the ground. When she saw this she jumped in shock then slowly walked over to it.

She looked down and examined the beautiful and sparkly pegasus. But when she touched its soft and silky fur its eyes popped open.

Tammíca quickly backed up as the pegasus stood it said, "My name is Peach and I saw you passed out in front of the demolished Bolaf hotel so I rescued you."

Tammíca was too scared to speak so she hid behind the big tree.

Peach followed her and said "Don't worry I won't hurt you I got lost in space I came from Ponyville."

Tammíca came out from behind the tree and said to Peach, "My name is Tammíca I lost my family and I am trying to get them back." After they realised what both of them are going through they sat down under the tree and told each other their life story until they both finally dozed off into a deep sleep.

Chapter Two: Making Friends

When Tammíca woke up she had a great idea for Peach and her so she shook Peach's shoulder until she opened her eyes.

Then Tammíca asked peach, "Can we transform this giant tree into our own treehouse?"

Peach was half awake so she said yes before she fell right back to a sleep barley knowing what Tammíca told her. Then Tammíca went to the nearest store but before she walked in she morphed into a tall, bright green alien with mouse ears so she wouldn't be caught as an annoying dust bunny. Then she grabbed a bunch of supplies for the treehouse and bought it all.

After this she went back to the tree and began building a staircase up the tree trunk. It was difficult for her to do this is her small dust bunny body so she morphed into a pegasus like Peach so she could fly while building. A few hours later after Tammíca built the whole treehouse she went back to the tree trunk and forced Peach awake shaking her shoulder.

When peach finally woke up she looked around and said, "How long was I sleeping and why is there a whole treehouse."

Tammíca said, "I told you I wanted to make a treehouse but you never woke up so I did it alone."

Peach got up and flew to the top and admired Tammíca's creation she said, "This is amazing!" and thanked Tammíca. As the sun went down Tammíca and Peach got cozy in their new home and fell asleep ready for tomorrow.

Chapter Three: Saving Family

Today was a big day for Tammíca because her and Peach were going to sneak into the alien's house and finally rescue her family out of the vacuum. She had a lot of planning to do so she begun mapping out the aliens home and how she will make her way in and find her family. As Tammíca was busy working Peach went outside and scavenged for food in the forest behind their treehouse. When she was looking for berries she heard the trees in the dark creepy forest creek as the wind roughly pushed up against their bark. She was spooked out by these woods so she rushed and quickly managed to get 20 goblísh berries using her super sense of smell. This much Goblísh berries would last Peach and Tammíca more than a couple weeks. When Peach got home to the treehouse she opened the front door and was surprised to see that every wall and table covered with mapping and plans Tammíca made to rescue her her family.

As soon as she saw this she asked, "Is all of this necessary for rescuing your family?"

Tammíca replied saying "Yes it is we have to be extra cautious because I am not ending up like my family did!"

Then Tammíca asked, "Anyways did you find any food out there i'm starving?"

"Yes, I found 20 Goblísh Berries!" said Peach.

"Amazing work but remember get some rest and eat a good lunch so we can sneak out and rescue my family late tonight," said Tammíca.

Then the two of them both devoured one Goblísh Berry and before the went to sleep and they set a alarm for 10:00 pm so they can wake up and head to the alien's home.

BEEP BEEP BEEP!!!

The loud obnoxious alarm goes off as Tammíca and Peach jumped awake. Quickly Peach got up and turned off the annoying alarm and dragged sleepy Tammíca out of bed. Then they both grabbed their plans and exited out the treehouse door. When they got to the outside porch Tammíca and Peach admired the starry beautiful night

Peach said "I am not used to this darkness because at my homeplanet it never gets dark outside".

"Wow I have never imagined living without nighttime darkness," replied Tammíca. Then she hopped on Peach's back as they began to soar towards Alien Territory.

Chapter Three: Saving Family

As Peach was flying Tammíca they both saw Alien territory far in the distance so Tammíca pulled out her map so they could spot which house her family should be in. Once they reached Alien Territory Tammíca pointed at the correct house and Peach dove down toward it flying faster than ever with the wind whipping both of their faces then Peach Came to a complete halt on the top of the house ripping one of the roof shingles off like a sticker.

Tammíca hopped off Peach and walked towards giant chimney of the house and looked down in it. She saw the 30ft drop and morphed into a fairy before she jumped in so she wouldn't get hurt. Then she flapped her tiny wings all the way down until her feet touched the ground. Tammíca looked around the nostalgic living room remembering her whole childhood her. Then she looked up the dusty chimney and saw Peach ready to squeeze through the chimney. Tammíca quickly moved to the side then watched as Peach Glided down and out of the fireplace.

Peach had her plans memorized so she went to the kitchen and hid behind the giant marble counter to keep guard then Tammíca walked over to the cleaning closet that had the vacuum stored in it. She flew up to the doorknob in her fairy body and opened the closet door but when she looked in she saw a brand new vacuum cleaner and that the old one was gone. Her heart sunk as she felt great despair her mind flooded like a hurricane with old memories of her and her family she thinks she will never see again.

Chapter Four: Grief

Tammíca morphed back into her normal body and lumped over crying on the hardwood floor as all her dreams and hopes from the past three years got replaced with sad hopelessness. As she cried for the first time she noticed her fluffy fur started to melt away like cotton candy and water but she couldn't stop. As Peach was guarding the kitchen she heard sniffing and crying so she walked over and saw Tammíca laying on the floor crying while washing her fur away. Peach reacted quickly and lifted her up and moved her to dry ground so she wouldn't fully melt away in her tears.

Peach asked, "What happened?"

and Tammíca said, "The vacuum..its..gone,"

"What do you mean," said Peach

But before Peach and Tammíca could get up off the floor they heard big footsteps that shook the ground underneath them and it sounded like it was heading towards them. Peach quickly reacted and dragged Tammíca in the closet so they could hide. The closet smelled full of Bleach and Cleaning supplies and Tammíca wonders how her family could ever live in this stench. When they were hiding they peeked through the crack of the closet door and watched as the alien walked over Tammíca's crying puddle but before they could do anything *CRASH!* the alien slipped backwards hitting the ground like a rocket.

Chapter Four: Grief

As the giant alien layed on the floor in pain

Tammíca whispered to Peach “Should we go help him? He seems very injured and he is one of the oldest aliens on this planet,”

Peach quietly sighed and said “Sure if you think it is the right thing to do”. Tammíca slowly slipped out the closet and walked over to the alien who was unconscious on the floor. Peach followed her as she tried shaking the alien awake but he wouldn’t budge. Peach moved Tammíca out the way and tried waking the alien until he opened his eyes and started to sit up. When the alien saw them he quickly scooted away.

Then he asked, “Who are you guys? Uhh, why are you in my house?”

“We are here to find my family you sucked them up under a vacuum three years ago,” Tammíca yelled so the alien could hear her.

“Oh those little grey dust balls that used to be under my couch I am so sorry I didn’t know you guys were living creatures,” The alien said.

“Its okay, but where is your old vacuum I am on a mission to rescue them,” Tammíca said.

The alien replied “Oh uhm that old piece of junk I threw it away last week” A tear dropped down Tammíca’s face as she knew her dreams are forever gone.

But Peach said “It okay Tammíca we can go to the landfill and find your family don’t worry we are not giving up!”

“Alright fine,” Tammíca said in a gloomy voice.

Chapter Five: Encouragement

Before Tammíca and Peach could leave they helped up the old alien and walked him over to the couch so he can rest from his injuries. Then Peach flew over to the phone and dialed the alienbalance.

“Please come to alien territory house #5 and bring this old alien to the hospital because he fell and is suffering from head and back injuries,” Peach said into the phone. Then Peach and Tammíca walked over to the alien and both apologized for the mess they have created.

Finally the two of them darted up the fireplace and out the chimney on to the roof. Tammíca then whipped out her dust bottle and poured the whole thing on her body to refresh her fluffy fur and to become her normal size again.

Then she asked Peach “Do you think we can actually find my family at the landfill?”

“I think we have a great chance to, we just need to be hopeful,” Peach replied.

“Okay, let's go right now no time to waste,” Tammíca said.

Then Tammíca jumped on Peach’s back and they took off soaring through the morning sunset sky. As they were flying in the sky Tammíca remembered what it was like to live in that old storage closet all alone and have no friends. But she felt good because she made a best friend in the past few days. Before she knew it the landfill was right under them so Peach soared down and gracefully landed on the diaper smelling trash pile. Tammíca hopped of her back and sighed in despair.

“How are we going to search through all of this mess!” Tammíca scuffed.

Peach replied saying “Oh yeah I forgot to tell you about my super sense of smell that's why I got so many goblsh berries when I scavenged for food a couple days ago.”

“AMAZING! This will take no time with your cool ability,” Tammíca said.

Chapter Six: Reuniting

After a couple minutes of searching Peach smelled a strong dusty smell and followed a trail and before she knew it Peach yelled out in the distance

“I THINK I FOUND SOMETHING!!”

Tammíca ran as fast as she could stepping on the mushy waste while waddling her round body over to Peach. When Tammíca saw what Peach dug out the rubble her eyes widened and she thought in her head “IS THIS REALLY MY FAMILY PLEASE IT BETTER BE” Then Peach broke open the vacuum and inside revealed her long lost family. Her mother and sister were laying side by side in the vacuum giving frightened and confused looks at Peach. Then Tammíca slowly walked over and saw her mother and sister for the first time in three years. Quickly they jumped up and ran over to Tammíca to all hug one another.

This scene was so heartwarming Peach had a teardrop down her face. But suddenly she remembered her mission to find her home planet again and see her family and this made her smile fade. All this time she was focusing on Tammíca but now she feels left out and wants her family again. As Tammíca peeked up while hugging her family she saw this look on Peach and she stopped hugging her family.

She asked Peach “What's the matter why do you look devastated?”

“I also need to find my family which will never probably happen because I don't know where ponyville is in space,” said Peach.

Tammíca being a good friend recognized all the help Peach was to her throughout this so she needed to do the same thing for her.

Chapter Six: Reuniting

“Now that we are reunited with the help of Peach I think its the right thing to help her reunite with her homeplanet and family,” Tammíca stated. Tammíca’s family agreed to this right away because of how thankful they are to Peach.

Tammíca then said “I have a plan we can go to alien territory and borrow one of their great spacecrafts to send Peach back to Ponyville.”

“THIS IS A GREAT PLAN! I am so grateful for you Tammíca I don’t know what I would do without your help,” Peach blurted.

Then Tammíca and her family hopped on Peach’s back and they soared together to alien territory. By now it was noon and the sun was beating on their backs making them all sweaty and they smelled like the landfill but this would not stop them. When they got there they went to the only alien they knew and that was the old alien in Tammíca and her family used to live with. When they knocked on his door the four small creatures felt his footsteps coming towards them. Then the alien opened and asked

“What are you trouble makers doing here again?,” The alien asked.

“Could we borrow one of you spacecrafts so we can send Peach back to her long lost home planet?,” Said Tammíca.

“Come on in and we can all talk about it,” The alien replied. Then Tammíca, Her family, and Peach followed the alien into his house until they reached the living room where they sat down on the big old couch Tammíca lived under in her childhood.

Then the alien asked “Can I trust you Peach flying a spacecraft?”

“Yes I am very trustworthy and this is for a good cause,” Peach replied back. “Okay, don’t worry I got you I have the best and fastest spacecraft in Dusty Den but I don’t even use it anymore I think giving it to you Peach would be my best choice in life,” the alien proudly said to Peach.

Chapter Six: Reuniting

The old alien then led all of them to his big warehouse where he stored a variety of all spacecrafts that he owned. When he opened the door to the warehouse Tammíca admired the giant beautiful creations. Then the alien pointed at the biggest and shiniest spacecraft of every other one and he commanded for Peach to get in Tammíca and her family followed. When they all got inside the spacecraft and to the main control center the alien then taught Peach how to fly and control this technology. As Peach was learning Tammíca and her family walked around the spacecraft and saw a bathroom, a bedroom, a kitchen, and a workout room.

“This is amazing! Peach could live in here if she wanted,” Said Tammíca. When they went back to the control room Peach already learned how to use the ship and it only took a couple of minutes for her to be confident and ready to take off. But before she turned on the spacecraft to leave she turned to Tammíca and her family and gave each one of them a big hug.

“I will visit you every year on this special day of the month,” Peach told Tammíca.

Tammíca replied saying “Sometime when you visit us can you take us to Ponyville and let us meet your family and friends?”

“Yes of course I can do that and i’m sure my family would love you guys.

Tammíca then turned to the alien and asked “What is your name sir?”

“My name is Bob,” thank you for asking replied the alien.

“Bob would you like to also go to Peach’s homeland and reunite with all of each other on this day every year too?” Said Tammíca.

“It would be a pleasure thank you for asking,” Bob replied.

After everyone said their goodbyes they left the spacecraft and watched as the roof of the warehouse folded up so she could levitate out the building and back to Ponyville. As Peach disappeared in the clouds Tammíca could feel tears drowning in her eyes but at the same time she was heartwarmed that Peach finally got to go home.
