2. Throw on the ground not deadly flowers plant right away that poisons the air.

★ Sweetlight pearls.

1. Protects you when your in danger.
2. Turns bad people good, no matter their background and they become a sweetling.

Chapter 1

Hi, im Orange Blossom Sprinkle from the Land of Sweetlings. On my planet there's a basket of fruit that protects our land. If it goes missing are land will disappear within 24 hours. The fruit lives with the queen. Here in our land, it is always warm and sunny. You will often see fairies flying around and flowers blooming. We rarely have problems here, as long as we keep our fruits with us, nothing will go wrong. There are lots of Berry blossom creatures running around, which is a strawberry hamster. Everyone is always very sweet and caring here; there is a low population of only 500, and we are always willing to have new people join if they follow the conditions.

Chapter 2

Once in a while, my friends and I will go and try to bring people to our land. We went to a different world we didn't even know, and there we saw only one person. We had a conversation with them and told them about our land, but it turned out they no longer wanted to be there and were feeling lonely. The whole time, they were very sweet. We took them in our flying carriage back to our land and showed them around. They asked how it ran, and I told them about the basket of fruit crystal. Their face lit up, but i didn't think too much of it.

We gave her a house and an outfit, then she became a peach sweetling. Once you become a sweetling, you can never get out unless the queen casts a magic spell. The queen wanted the population to grow, so getting the spell was very rare.

It was the next day and sunday a loud buzzer starts going off and me and my parents and all the neighbours wake up and go outside, everyone is wondering what's happening but then we all get a call on are banana phone then we go and answer then run outside, someone managed to steal the basket of fruit crystal that keeps our land together, I go to check on the new neighbour and there gone and there house is empty.

Chapter 3

I was mortified. We've spent so long building that planet and gathering people, and if it disappears, we will all go back to our old land, which is very dark. I knew this was all my fault, all the sudden the queen's carriage comes outside my house and her maid gets out and tells me to go in the carriage, i get in and see the queen and she crying and very scared and the first thing she says is " what have you done" I burst out in to tears knowing this planet is gonna be gone all because of me.

I went to the queen's castle and told her where I found them. She said I had to figure this out, and if someone else did before me, I would be gone from this planet. I decided how to step into action, and then i remember my friend Cherry Blossom is a detective and could help me. I went to her house, and then I told her how I found them, and she asked what planet I got them from, and I said the one left from us, and she told me we were never supposed to go there.

We went and got in my carriage and were gonna go to the planet we found him at, but all the sudden it vanished.

Chapter 3

We go back to our planet, and it's starting to turn brown and rot since it's made of fruit. We tell the queen it's gone, and she gets terrified and we knew this planet was gonna be gone. Cherry blossom, and I don't know where to check. The queen says I don't want you to do this, but there's no other option: go to the planet of evil, and look there.

Chapter 4

We get in are carriage and say goodbye to our friends and family, knowing we might never see them again. Were about to leave, and all of a sudden, cherry blossom jumps out and says i'm not doing this, it's your problem; you solve it then she hands me something and says Don't open this till you get off this planet and then she runs off.

I start to cry because I'm so angry, and this is gonna be a struggle, but I take off in the carriage and leave for my adventure. The unicorns driving my carriage start to fly, and then I look at what she handed me, it was a map, the only map of the universe that has a one million dollar reward and she gave it to me. Suddenly I'm not mad at her, and I'm so grateful, I find out I don't have to guess where to go, I have the map. I only had 18 hours left, and it was a two-hour ride there and back because it was on the other side.

Chapter 4

As I'm on my way there, the unicorns start to slow down and turn out to be hungry. I went to grab the cotton candy that's always stored, but the person who stole the crystal stole it to, i freaked out, not knowing what to do, when I said another planet and stopped there. I went to the store and saw cotton candy, but all I had were strawberries, and they saw my map and said they would do the map for it. I said no, but then realized I needed the cotton candy. I prayed I would remember how to get there and back, knowing this would make it hard, but I made the trade and then left.

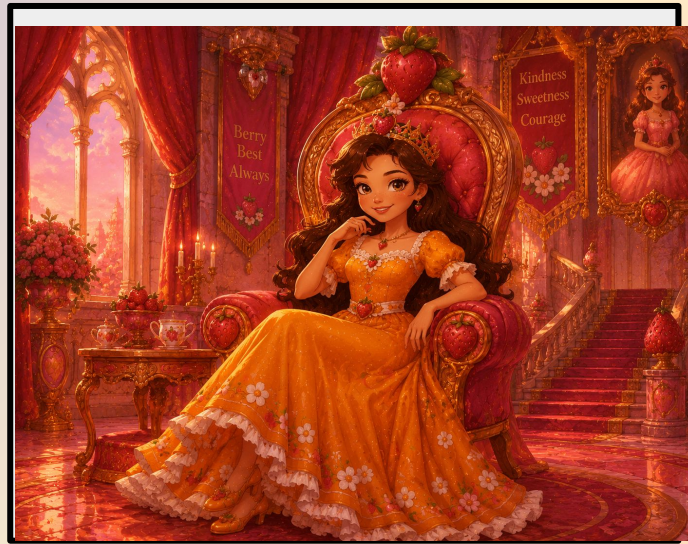

I was on my way back to the carriage, and then I saw this beautiful hair clip on the ground. I picked it up and put it in my hair and left. I was almost there, and then there was a boom. I looked, and the unicorns had been hurt, and we were crashing. I saw the planet, and I jumped onto my unicorn and grabbed the other one by its horn, then suddenly the hair clip started to rain glitter, and my unicorns weren't hurt anymore and I landed safely with them on the planet.

Chapter 5

After I landed, I looked around. It was empty, dark, and gloomy. The ground was made of dried lava, and it was cracking. I wasn't sure what to do, and I was very scared. I looked around and saw an old, broken wall with a door. I went to the door, and it was creaking as I opened it. Then I saw a memory of when I was first born and when I met the queen for the first time. It was almost replaying my life, but on a screen. I didn't fall for it and went and got into my carriage and just told my unicorns to go. I was so mad I barely even cared if I saved the planet or not, but then it kicked, I need to save my planet.

Chapter 6

I looked around, and it was a purple planet with lots of holes. I started to explore around, then I saw a podium. I went up to it, and there I saw the crystal I needed with a bunch of other planet's crystals. I knew I wasn't supposed to be there. I ran up and grabbed it and grabbed all of the other crystals, and there spawned my carriage, and I loaded the crystals and left. I couldn't remember the way, but my unicorns took me there. There, everyone was watching as I slowly took out the crystal and handed it to the queen. Our planet was safe. I was exhausted, so I went and took a nap. I woke up, and that whole journey felt like it was just a dream. I went outside, and everything was normal. I was starting to question if it was real or not. I never mentioned anything about it because I didn't want people to think I was crazy. Around a week later, I went to my friend's house, and she mentioned something to me about it. It was weird because how could something so big just seem so little to our town? I went to the bakery in town, and I was looking at the photos and realized this has happened many times, and our planet would be fine if it were just a test to find out who could be the next queen. Every queen we've had has gone through that test. 15 years later I became the queen, and our town went on and stayed the land of the sweetlings.
