Chapter One

I was 4 years old when my mom and dad abandoned me. I was heartbroken cause how could my own parents just abandon me like that? One day I was just sitting outside on the sidewalk and then I looked up and a random person came up to me. They were tall and had on a weird outfit but I couldn't tell what they were. They asked me

“ Why are you all alone? You're too young to be outside on the streets all alone. There are some weird people out here.”

Then I told him”My parents abandoned me a couple weeks ago.”

Then I asked him "What are you?

He told me “I'm a genie and I grant wishes.”

The genie asked “ If you could have any wish. What would it be?”

I told them to have a family who loves me, cares about me and will take care of me.

The genie said “ come with me.”

So I got up and followed him. I haven't taken a shower in days and it feels like I haven't eaten or drank in days.

I asked the guy “What is your name?”

He told me “ I don't have a name and to just call me genie and I grant wishes.”

I was walking with my head down and when I looked up we were in the middle of nowhere.

I asked the geni “Where are we?” He tells me

The genie said “ This is my house.”

“In the woods?” I asked

“ No, he said we have to go a little farther than this, then we will be at my house.”

I said “ okay.”

When we got to his house it was so big. I have never seen anything like this before.

When we got to his house it was so big. I have never seen anything like this before.

Chapter Two

When we got to the genie's house everything was going well. He gave me powers, I had a bed to sleep in, I had food, got to take showers, I had everything I needed. It felt like this was all a dream. A few years passed and now I'm 14. One day I went up to the genie's room

I asked” Can we maybe go on an adventure and go find my parents? .

He said “I don't know if that's a good idea. They abandoned you for a reason.”

“I sighed and said ok”

A few hours passed and the genie said that we could go try and see if we could find them. He asked me a few questions about my parents and I told them where my home planet is and all the different stuff about them. He told me that we got to go back to Iris Green and see if they are there. So I went to go pack my stuff and we left.

Chapter Three:

we knew that this was going to take about 3 days to get there. While we were up in the air flying, i seen dragons and all different kinds of things in the air. So we planned to stop at 2 different planets to rest. The first stop was Earth 412b and picked a nice looking tree to rest at. The next planet was Cronila, there was a nice island there. It felt and looked like we were in paradise.

It was so peaceful with the waves crashing against the shore. The last stop was Iris Green, I was so excited to get there and see if my family is going to be there. When we got there Iris Green and a lot of other planets were hit by the nightmare. I don't know what to do. My family wasn't there.

I don't really know anyone in the other planets that are by Iris Green. I talked to them once I think when I was little before I got abandoned. But they're probably not going to remember who I am and I don't remember what they look like now or they're personality.

Chapter Four

When we got there a lot of the planets were hit by the nightmare and it keeps on spreading. When we got there my parents weren't there. I was getting a little worried. But the genie told me not to worry about it and we will find them or at least try to find them. This nightmare is so big and there basically all over the planets.

So it's going to be hard to destroy this nightmare on my own. I'm going to need more people to help. I think I'm going to go on an adventure by myself and see if I can create a weapon to destroy this nightmare once and for all! I left Iris Green at a full moon cause I thought it would be better if I left when it was a full moon to see if I could find anything left behind by someone. When I got there I saw a bright magical crystal and bear claws laying on the ground.

I picked them up and thought to myself “hmm I could make a cool weapon out of this and destroy this nightmare.” I got back to Iris Green. I got right to work. I didn't stop until I was finished. I wanted to finish this weapon before the nightmare got even worse. While I was getting to work I thought of a name to call it so I wouldn't have to just call it the weapon.

Chapter Four

I called it “ Claw of the first Bear.” While I was making the Claw of the first bear, out of nowhere the geni showed up. He was trying to stop me from making the magical item. He was trying to say to me “ This isn't going to work, how about you just stop making it. You're just going to make things worse.” He was trying to destroy it but while he was trying to destroy it, he got hit with something from it. He tried using his powers on me and the claw of the first bear but his powers stopped working.

Then we got into a huge argument. About how he doesn't want me to make the magical item. I went back out to see if I could find any more items that would help me. There was an animal, she asked me if I needed any help looking for more items for my claw of the first bear. I told her yeah, so we went looking but we didn't find anything. Then I thought of an idea and thought that she could be my pet and help me fight the nightmare. So I would have the claw of the first bear and my new pet named Silvia.

Chapter Five

When it was time to fight the nightmare, we all were nervous because this thing was big and strong. There was no back downing. Our plan is to get as close as we can to the nightmare and make sure we fight the nightmare on a full moon, Cause Silvia powers become more stronger and powerful when fighting and the “Claw of The First Bear” when there is a full moon the claws will start to glow and a bear will spawn and will attack the enemy. But when the sun comes back up Silva powers won't be as strong and the bear. We have to stick to our plan. When we got to the nightmare my heart started beating really fast. All I could think of is getting my parents back and saving them. Rock man went to the middle of it to see what we could find out about this nightmare. A couple days went by and it was the day to fight the nightmare. We had to make sure it was on a full moon or it wouldn't work. While we were fighting the bear from the claws spawned and me, Silva and Rock man were distracting the nightmare so the bear could go to the middle and bite the middle of his neck. The nightmare slowly started going away.

Chapter Six

When we were all down destroying the nightmare. I went up to the geni and asked him
“ Now tell me where are my parents at?”

He said “ I put them all the way on the other side of the planets. You have to do something for me to get them back.”

I said “ What is it now?”

“ You gotta give me the weapon that you made to destroy the nightmare or you'll never be able to see your parents again!”

“ NO! Go make your own! I spent weeks trying to make "Claw Of The First Bear.”

“ Well then I guess you're not going to get your parents back then.”

“ Whatever, fine!”

I gave him “ Claw Of the First Bear. We flew all the way to the other sides of the planets. It took us about 2 weeks to get there. It took us longer to get there than when we went to Iris Green. We finally made it to Solaris. When we got there I didn't see my parents.

“ Where are they? I thought they were here?”

“ They are here. There over there” “ He pointed”

When we went over to them, I did not recognize them. They looked so much older then I last saw them. I went up to them and said

“Mom, Dad, is that you?”

“Omar! We missed you so much. I didn't think I would ever see you again!! I'm so happy you're alive.”

I'm so happy that you guys are alive too. I didn't think I would ever see you again.”
We went back to Iris Green. The geni went to live on his own and me and my family reunited and lived happily ever after.

THE END!!
