Sword of Phonieas

Rock Steady

Shoveisord

Earth-1082

Futuristic Phone

Origin Story: I was experimenting on my spaceship and I went to 2 different planets and stole these Items from the civilians. I then combined these 2 items and made the Sword of Phonieas. And this tech is great for communication/killing.

Appearance: This sword looks like a phone but has a blade that comes out when you activate threat mode. Sometimes the sword will come out red but normally the sword is just silver.

● Smartphone

Used like a regular phone and can communicate with other planets. Also can run games at very high speeds. Also when you order something it can arrive within seconds.

◆ Sworship

Retractable sword that comes out when you enter threat mode in the phones settings or you can ask siri to. This sword is very sharp and can slice through metal.

★ Killer Instinct

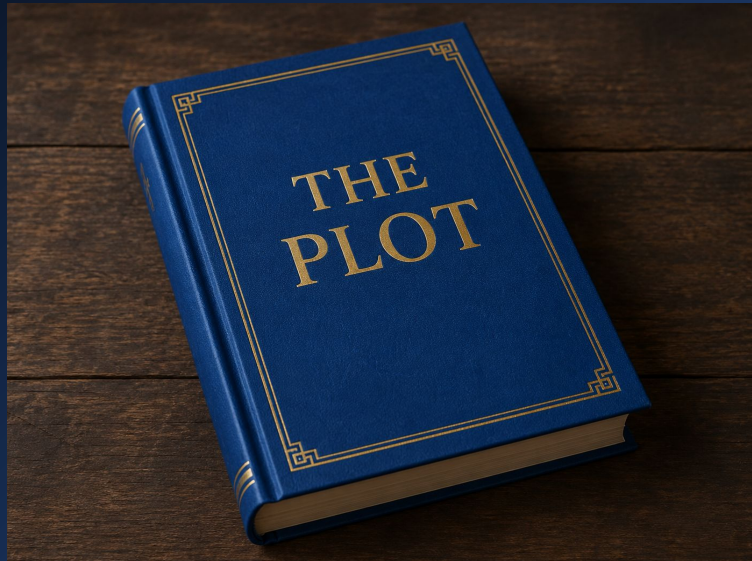

When the sword folds out sometimes it comes out and it is red this means that if it makes contact with something it will die on touch. Some people even claim that it will talk to you if you get lucky enough

Chapter : 1 Revenge

Have you ever been kicked off of your home planet? Well I was and all I want is revenge. My name is Peter Dixon and I used to be a bodyguard for the king of Lavarsi. I was the bodyguard of Lavarsi and life was great. I had money, friends, and authority. I even had a big lava castle all to myself and a beautiful wife named Patricia and she was an Alligator bird. Little did I know this would soon be ruined by a selfish wing leg who I thought was my friend. Some people think I'm crazy for being a killer but I think in this world it's everyman for themselves and you gotta do what you gotta do. So I think the people of Lavarsi were just looking for a way to get rid of me.

Chapter : 2 The plot

Like I said before I used to be a body guard for the king until I was framed by another bodyguard who was jealous of how close I was to the king. This bodyguard's name is Janobe and Janobe wanted to take my spot and become the king's right hand man. Janobe would do anything to become the new me. I worked as the king's close bodyguard for 300,000 years and I can't believe they would just throw me away because some peasant framed me and said that I stole gold from the king's palace. But at the same time everyone thought I was crazy so I can kinda see why they would believe him. Now I live on mars and I am trying to find a team so I can build a spaceship and go back to Lavarsi and take the planet from the king. Currently I am by myself and hunting for someone who has the qualities to build a spaceship. This is a hard task because Mars has a low population.

Chapter :3 the call to adventure

One day when I was exploring a cave on Mars I found a really interesting guy and he told me he knows someone who can build a spaceship. But this person hasn't been outside in 2 million years so it would be hard to get him outside and prepared to build a spaceship. This guy's name is Vader and some say he killed his family. This guy sounds like me and him could get along real well. I went to his house and knocked on the door.... He didn't answer. I was forced to just open the door and look for him. I went into the living room and the kitchen but still no sign of him. That's when I heard a loud bang come from the basement. When I approached the door the lights were on in the basement and I heard whispers. I slowly cracked open the door and quietly stepped down the first stair and heard a low voice say “stop right there” I panicked and ran up the steps and out of the house. I had to build up my courage in order to go back. After a couple days I finally went back but this time I brought the Sword of Phonieas with me because if that guy tried me I would show no mercy and slice his head clean off.

Chapter 4 the heartbeat

I crept up to the front door as my heart was beating out of my chest. I slowly inched my hand toward the door handle and as soon as my hand made contact with it I felt something hot on my hand. He must've tried to set a booby trap for me, which means he knows I'm here. But luckily I am a wingleg and we don't get burnt, we do the burning so I opened the door meanwhile gripping the Sword Of Phonieas tight with my other hand prepared for the worst possible outcome. Luckily when I peeked in the house I saw nothing except for a piece of paper that had some kind of blueprint. I couldn't tell what the blueprint was from the door so I crept into the house as quietly as possible. Once I got closer to the paper I realized that the piece of paper was a blueprint to a spaceship and with this I didn't need Vader's help. With this piece of paper I ran out of the house and made my way back to my camp. Once I got back to camp I started to look at the list of supplies I would need to build a spaceship and the things that I needed were very hard to find. For example a Zoner is an item only the chosen 1 can find deep in the Mars mines.

Chapter 5 the quest

I realized that to find the items I needed in order to build a spaceship I would need to work hard and go on a journey. The first item I am looking for is the Zoner. This is the main engine piece of the ship. It is like the motherboard of the ship. In order to find this I would have to go to a Mars cave entrance and go very deep into the cave and have to pray that I spot a Zoner. I loaded up my gear and got into my flying car to begin my trip to the cave. Once I arrived I unpacked all of my cave gear and headed to the cave entrance. Two hours later I am now deep into the cave and I am struggling to find a Zoner. Just as I was about to give up I ran into a guy he asked me what I was looking for and I told him I was looking for a Zoner, he looked at me with a smirk and said this is your lucky day my friend and said he had a new invention he was testing that was called a Zoner spotter and the way it worked was it had xray vision and a special tech that could see Zoners. I told him to let me use it but he said I would have to pay him first. That's when I remembered that I brought my Sword Of Phonieas with me. I quickly reached for it and sliced his head off with no mercy. I mumbled under my breath "thanks for the Zoner finder" as I drug his body behind a rock so it would never be found again. After I made sure I left no trace I picked up the Zoner finder and turned it on.

Chapter 6 the journey begins

As soon as I turned on the Zoner finder I realized that there was a Zoner around the corner the whole time and that if I would have just kept walking I would have come across it without having to kill that guy. But it didn't matter to me as I found killing enjoyable anyways and needed to let out some anger. I quickly grabbed the Zoner and Zoner finder and headed back out of the cave. 1 year later, I have finally finished getting all of the items and it is time to start my journey back to Lavarsi. I made a list of the stuff I would need in order to survive in space and not starve to death or anything like that. After I got the supplies I loaded them into my spaceship and put on my homemade space suit made out of knights armor. That's when I took a deep breath and started the spaceship. After a couple minutes I launched into the darkness starting my journey to lavarsi. To be continued.....
