Chapter One: A New Day

Bubba Blue wakes up in his lavish apartment. He is the son of the richest man on Bigora. The home planet of the Chudians. His father became the richest person on Bigora because of his Golden Cheeseburgers. These Golden Cheeseburgers are the most valuable resource on Bigora. They have many properties that allow the Chudians to be so powerful and rich.

Bubba has a big day ahead of him, this is the day that he gets to start working for his father. When a Chudian reaches the age of 39, they are finally adults. This is because Chudians live for 200 years. He will start as a businessman at his fathers company. He will negotiate deals and go to meetings with his dad. This is so he knows what he is doing when he takes control of the company.

Bubba takes no time getting ready, he has been waiting his whole life for today. He has his robot assistants get him ready, putting on his suit and gold jewelry, something that all Chudians wear.

He takes the elevator down to his kitchen to eat breakfast. His breakfast is made up of 20 golden cheeseburgers, 10 breakfast burritos, and a gallon of Pepsi. This is a normal Chudain meal because they are so fat.

Once he is done eating he heads to his fathers headquarters, the Chud Company. He leaves his giant home in Tubby Town and takes his private bus. Bubba is amazed as he looks out his window and sees the grand scale of his dads company. The Chud Company headquarters is 198 stories tall and the tallest building on Bigora. It is a towering skyscraper that has lots of windows.

Bubba gets dropped off at the grand doors of the entrance, he is greeted by robots that take him to the top of the tower. He steps into his fathers office on the 198th floor. His father is waiting at the end of a long table.

“You finally made it.” He says, “Are you ready to start your first day?”

“I’ve been waiting forever.” Bubba says cheerfully

Bubba works with his dad all day on business and trades. At the end of the day he leaves with his dad.

Chapter Two: First Mission

Bubba wakes up to his 2nd week of work. He has been observing all the trades that go on. Today is his first big job, he is going to travel to Plodian to discuss a trade between them and Bigora. He will have to fly a spaceship for 4 days to reach it. It will be an easy ride, so he will have lots of time to think about what he is going to say.

He takes his private bus to Chud Co headquarters. There his father waits for him to make it to the hangar where the space ships are stored. Bubba has been trained his whole life to fly a Chud Copter. The Chud Copter is the advanced ship that Chudains use to travel space.

Bubba finally makes it after 20 mins to the hangar, because Chud Co. Headquarters is so big and the cart holding bubba struggles to move under his weight. He gets a grand ceremony with lots of robots lined up next to the ship to send him off.

He greets his father in front of the ship and says some goodbyes. He climbs into the ship and states the engine. When the Chud Copter lifts off the ground it slowly flies out of the hangar and launches into space.

Bubba leaves the planet and floats in space for hours, he spends his time eating chips, drinking soda, and playing video games. These are the things that all Chudians love to do. Bubba begins to feel lonely on his far trip from Tubby Town but falls asleep after playing some video games.

Bubba wakes up to red flashing lights, his Chud Copter has just flown right into an asteroid field. The ship's AI begins to blast warnings that the ship is getting dangerously close to asteroids. He slowly raises his chair at max speed and takes control of the Copter. He tries to avoid them swerving back and forth. He takes a hard turn and runs straight into one hurling at him. He braces for impact and smashes right into it.

Chapter Three: Crash Landing

Bubba wakes up in his ship, he's still strapped to his chair. He looks up through the front window of the Chud Copter and sees thick moss and vines sprawled out on the ground, tall dark trees with thick branches a 100 feet up. The forest is dark and gloomy with fog all around

He gets up from his chair and walks to the engine room to see if he could fix it. He aches with every step. He pries open the large metal door and is shocked by what he sees. The door leads to an open space where the engine room should have been. He looks out onto the forest, terrified by what he sees. He stares there for a little bit after realizing he must be stuck on this unknown planet.

He suddenly remembers the Golden Suit. A suit that all Chudians have that gives them abilities to do lots of things like making Golden Burgers. Bubba hobbles to the room where this suit would be. He is not surprised to find it missing and torn off the ship.

He still knows that there is a locator gun that shows where it can be found, since the Golden Suit is indestructible. He breaks open the box on the wall where it is, and starts the gun. It opens up a map on a screen on the back of it, he fires the gun and it makes a sonar noise scanning the area. The tracker locates the Suit to be a little over 50 miles from him. Bubba grabs all that he can use and leaves the ship.

The forest is very dark and scary with animal noises all around him. He walks over the thick moss and ferns that surround him. He walks for some time before needing a break. Chudians are very fat so it is hard for them to walk for long distances.

After Bubba's break, he starts walking again. We begin to get weary and scared, as though he's being watched by someone. He stops to listen every few steps to hear if something else is moving. He tries to look deeper into the forest but the tree canopies block out any light getting through. He stops suddenly listening to leaves rustling. He turns around watching the tall grass move as something gets closer. He braces for it to come at him and is surprised when he sees another Chudian.

The Chudian runs out of the grass with a spear ready to attack him.

"STOP!" Bubba screams, putting his arms up in fear.

The Chudian stops running and pauses in front of him.

Chapter Three: Crash Landing

The Chudian stops running and pauses in front of him.

“Ur a Chudian too?” The mysterious person says.

“I’m Bubba Blue, I’m not gonna hurt you.”

The other person lowers down their spear, “Im Gorloc, how did u get here, I’ve been trapped for years.”

“I just crashed my ship and got stuck on this planet. I’m trying to find my Golden Suit to get me back home.”

“I can help you if you take me with you.” Gorloc says

So the two Chudians start making their way to the Golden suit to leave this mysterious planet.

Chapter Four: Hot Pursuit

Bubba and Gorloc make their way through the dense forest. Gorloc tells Bubba about the Nightmare monsters that live on this planet. He says it's like a disease that turns normal animals into monsters. These monsters stalk the dark forest for things to eat. That's why Gorloc tells Bubba to stay in only the brightest spots of the forest. This makes Bubba even more scared of the forest over the fear that he could be eaten at any time.

They keep walking for a few miles before they stop where the bright spots end. They will have to cross a dark part of the forest to make their way through. Gorloc tells Bubba to watch his every step for monsters.

Bubba can't risk the danger of crossing the monster's path. So he uses his one time ability on his chain. He presses the big button on the back of his golden chain and it trunks into a car. The car is a Cadillac CT5-V Blackwing. They both get into the car and Bubba starts driving.

They race through the forest, zipping past most monsters. But one is too fast and catches up to them. Bubba floors the car going as fast as possible trying to out run. He sees the edge of the light peaking through the trees. He is so close to the end of the dark spot and only a few miles away from the Golden Suit. The Monster hot on their tail reaches out and swipes the back of the car. It spins and barrel rolls toward the end of the dark spot. It just so barely makes it out of the dark and into the light. The monster is scared away and slinks back into the dark.

Bubba and Gorloc get out of the car and take a deep breath, they are safe for now.

Chapter Five: Big Decisions

The two walk for some 2 miles and finally see the crashed part of the ship. It is at the top of a huge hill, at the foot of a tree. They slowly walk up the hill, it's really hard for them to do it, because they are so fat. After a long time of huffing and puffing they make it to the part of the ship. Bubba opens up the door and steps inside. He uses a flashlight in his glasses to light up the room.

And there he sees it, the Golden suit on the wall, the way off this planet. He goes over to and takes it off the wall. He inspects it and realizes that it is damaged from the crash. He puts it on and tries to use its high tech abilities to give Gorloc a part of the suit.

He realizes that there is not enough to get Gorloc off the planet and that one of them will have to stay behind. He thinks about the outcomes of telling him and how he would react. Bubba comes to the conclusion that he might be fine since he has already been there for so long.

“Whats wrong with it?” Gorloc asks after studying his face.

“It's broken, and...” Bubba spits out.

“And what?” Gorloc says in confusion.

“Only one person can get back home.” Bubba says with a sigh.

Gorloc stares for a few seconds before lunging at the suit. He tries taking it off and stealing it from him. But Bubba pushes him off, the power from the suit gives Bubba the advantage. Gorloc pulls out his spear and stands in front of the door. Bubba has no choice but to use the soda rockets from his suit to blast Gorloc. He fires the rockets, sending Gorloc flying out of the door and rolling down the hill.

Bubba steps out of the ship and onto the hill. He looks down at Gorloc standing up from his fall.

“I’m sorry I have to do this, I’m gonna be the richest guy ever.” Bubba says

Bubba starts the jets and flies off out of the forest and into space. Leaving Gorloc to stay in the dust.

Chapter Six: Home Sweet Home

Bubba flies for 2 days back to Bigora. He thinks about Gorloc the entire way home. He makes up his mind to tell his father to send out a search party to go back and find Gorloc.

When Bubba sees the planet Bigora in the distance, he is the happiest he's ever been, all the intense emotions of his journey seem to drown away as he gets closer to the planet. He drops down into the atmosphere, seeing the big deserts and his home, next to the ocean, and an oasis of green on a barren planet.

He touches down on the ground right outside his mansion. He quickly gets out of the suit and runs inside to his father. He finds him at the fire looking worried. He runs up and grabs him, feeling the best he ever has. His father hugs and tries to hug him but is too fat so he just grabs him with his hands. Bubba tells his father that he was stuck on a planet and had been saved by another Chudian. They are Gorloc, and that they need to go back and save him. Bubba's father immediately calls his assistants to prepare a ship to go and recover Gorloc.

Bubba goes on to live a very successful life and becomes even more richer than his father with the help from Gorloc.
