The Dark Aether

Nuke room

The purpose of this room is to keep the nuke safe. From everything and so it does not go off in the room.

Launch

The purpose of this room is to launch the nuke. The higher ups stay in the room so not one launches the nuke.

Armony

The purpose of this room is to keep all of the guns and vest to keep them safe. From everything dangers so they dont kill someone.

Chapter One: Launch

My name is Lethal. I got the name cause I always got some explosives on my vest. I come from the planet The Dark Aether, which is like a planet that has some military bases, a lot of buildings, and not that many people, but it is a good planet to get some stuff from. What I want to do is get all of my work done when I can do it. My friend was in danger, and I was thinking about how he got captured. Then they said, "Who is the person to save him?"

I raised my hand.

They said, "Here is our person to save the day."

I replied, "yeah, yeah," then I went home and had dinner, then I went to bed. When I woke up, I was thinking about the mission, how am I going to get there, but this is the future, so I had a spaceship that goes mok 0 speed.

Chapter 2: Earth

So I got in the spaceship to go to Earth, and everyone said their goodbyes, but I was thinking how did my friend get captured, cause earth and The Dark Aether are friends, and then I was strapped in to go, and then I was thinking why am I the bravest one to go get him from this crap, then I was going so fast that I did not know where I was. I probably was not happy because I had to go by myself and do a mission by myself, but I thought my home planet wanted me dead because I was good at my job.

Chapter 3 : Going

When I got there, it was different. I was calm cause no phaser bear came up and tried to attack you. When I landed, it was calm, and it was great to be in a different place with different things. It had more people and trees, but I could not breathe in the air. But I had a tank for the air that I breathe. It took me a while to put it on 'cause the tank and the breathing thing were being stupid, but I figured it out so I could stay alive when I was there. But I started to think about what it would be like when I got to Area 51, how I would find my friend, and how I would get out.

Chapter 4 : going

When I got my tank on, I started to run to a car so I could drive there. Still, the thing is that I don't know how to drive, so if I get pulled over. I am screwed. Cause they will know I got to a motel that I got a key from, so I stayed there for a while, then I got back on the road, then I got to the gate. I don't want to get tripped, so I got my knife out.

I killed one of the guards and then killed another guard, then I broke their radio station, and I could not use the crystals I had cause it is on a different planet, so I could not use them.

Chapter 5 : found

Then I found my friend, who told me to get my lockpick and pick the lock, so I did. Then we heard something. Then I saw it was one of our kind in a cage, so my friend and I saved him. Then we got back in the car and started to drive away from that place, and started to go to the spacecraft.

My friend said, “Thanks for saving me,” and then I gave him a head nod. Then we got to our planet, and I got them home.

Then I started to walk to the chain of command, but I was thinking of what the symbols were, but then I thought that the chain of command took them for a reason cause they wanted to take me to keep me there.

Chapter 6: bang

Then I went to the chain of command, punched the general, and said, “What are you doing?”

“You sent me to a planet that captures our kind, keeps them, and kills or tortures you”.

So I dragged him to the spacecraft, put him in it, sent him to space, and kept him there. Then, when he left and said to the crowd, “ if your going somewhere, you tell me,” then I left. My friend came up to me and gave me the legend of the phaser bear's teeth, and I said, “How did you get this”?

He said, “I can't tell you.”

Then I said, “Thank you.”

Then I turned around, went to my house, cashed in the tooth, and got a lot of money.
